

XM-504Z

SERVICE MANUAL

Ver 1.0 2004. 01

US Model
Canadian Model
AEP Model
UK Model
E Model

SPECIFICATIONS

AUDIO POWER SPECIFICATIONS (US model)

POWER OUTPUT AND TOTAL HARMONIC DISTORTION

50 watts per channel minimum continuous average power into 4 ohms, both channels driven from 20 Hz to 20 kHz with no more than 0.04% total harmonic distortion per Car Audio Ad Hoc Committee standards.

Other Specifications

Circuit system	OTL (output transformerless) circuit
Inputs	Pulse power supply RCA pin jacks High level input connector
Input level adjustment range	0.3 – 6 V (RCA pin jacks), 0.6 – 12 V (High level input)
Outputs	Speaker terminals
Speaker impedance	2 – 8 Ω (stereo) 4 – 8 Ω (when used as a bridging amplifier)
Maximum outputs	Four speakers: 100 W × 4 (at 4 Ω) Three speakers: 100 W × 2 + 250 W × 1 (at 4 Ω)
Rated outputs (supply voltage at 14.4 V)	Four speakers: 50 W × 4 (20 Hz – 20 kHz, 0.04% THD, at 4 Ω) 60 W × 4 (20 Hz – 20 kHz, 0.1% THD, at 2 Ω) 5 Hz – 80 kHz ($\frac{+6}{-3}$ dB)
Frequency response	0.005% or less (at 1 kHz, 4 Ω, 10 W)
Harmonic distortion	80 Hz, -18 dB/oct
Low-pass filter	80 Hz, -12 dB/oct
High-pass filter	12 V DC car battery (negative ground)
Power requirements	10.5 – 16 V
Power supply voltage	at rated output : 30 A (4 Ω, 50 W × 4)
Current drain	Remote input : 1 mA
Dimensions	Approx. 350 × 55 × 233 mm (13 7/8 × 2 1/4 × 9 1/4 in.) (w/h/d) not incl. projecting parts and controls
Mass	Approx. 3.1 kg (6 lb. 14 oz.) not incl. accessories
Supplied accessories	Mounting screws (4) High level input cord (1) Protection cap (1)

Design and specifications are subject to change without notice.

SONY®

PROTECTOR OPERATION CHECK**Thermal Protect**

1. Short across TH901 with the power on.
2. Verify that the protector is operated and LED901 illuminates red.
3. Verify that the protector is released and LED901 illuminates green when the short is removed.
4. Likewise, perform items 1 to 3 for TH902 and TH903.

Over Current Protect

1. Short between the positive and negative sides of the speaker output terminal CN903 and CN904 (1/2) with the power on. (Perform this shorting for each channel on FRONT and REAR.)
2. Verify that the protector is operated and LED901 illuminates red.
3. Verify that the protector is not released and LED901 remains red even when the short is removed.
4. Verify that the protector is released and LED901 illuminates green when the power is turned off and then on again.

Offset Protect

1. Short between the +12V terminal of CN904 (2/2) and the BTL+ or BTL- of the speaker output terminal CN903 and CN904 (1/2). (Short between +12V terminal and BTL+ and between +12V terminal and BTL-.)
2. Verify that the protector is operated and LED901 illuminates red.
3. Verify that the protector is not released and LED901 remains red even when the short is removed.
4. Verify that the protector is released and LED901 illuminates green when the power is turned off and then on again.

5. ELECTRICAL PARTS LIST 13**Notes on Chip Component Replacement**

- Never reuse a disconnected chip component.
- Notice that the minus side of a tantalum capacitor may be damaged by heat.

SAFETY-RELATED COMPONENT WARNING!!

COMPONENTS IDENTIFIED BY MARK \triangle OR DOTTED LINE WITH MARK \triangle ON THE SCHEMATIC DIAGRAMS AND IN THE PARTS LIST ARE CRITICAL TO SAFE OPERATION. REPLACE THESE COMPONENTS WITH SONY PARTS WHOSE PART NUMBERS APPEAR AS SHOWN IN THIS MANUAL OR IN SUPPLEMENTS PUBLISHED BY SONY.

**ATTENTION AU COMPOSANT AYANT RAPPORT
À LA SÉCURITÉ!!**

LES COMPOSANTS IDENTIFIÉS PAR UNE MARQUE \triangle SUR LES DIAGRAMMES SCHÉMATIQUES ET LA LISTE DES PIÈCES SONT CRITIQUES POUR LA SÉCURITÉ DE FONCTIONNEMENT. NE REMPLACER CES COMPOSANTS QUE PAR DES PIÈCES SONY DONT LES NUMÉROS SONT DONNÉS DANS CE MANUEL OU DANS LES SUPPLÉMENTS PUBLIÉS PAR SONY.

SECTION 1 GENERAL

This section is extracted
from instruction manual.

Connections

Precautions

- This unit is designed for negative ground 12 V DC operation only.
- Use speakers with an impedance of 2 to 8 Ω (4 to 8 Ω when used as a bridging amplifier).
- Do not connect any active speakers (with built-in amplifiers) to the speaker terminals of the unit. Doing so may damage the active speakers.
- Avoid installing the unit in areas subject to:
 - high temperatures such as from direct sunlight or hot air from the heater
 - rain or moisture
 - dust or dirt.
- If your car is parked in direct sunlight and there is a considerable rise in temperature inside the car, allow the unit to cool down before use.
- When installing the unit horizontally, be sure not to cover the fins with the floor carpet etc.
- If this unit is placed too close to the car radio or antenna, interference may occur. In this case, relocate the amplifier away from the car radio or antenna.
- If no power is being supplied to the master unit, check the connections.
- This power amplifier employs a protection circuit to protect the transistors and speakers if the amplifier malfunctions. Do not attempt to test the protection circuits by covering the heat sink or connecting improper loads.
- Do not use the unit on a weak battery as its optimum performance depends on a good power supply.
- For safety reasons, keep your car audio volume moderate so that you can still hear sounds outside your car.

If you have any questions or problems concerning your unit that are not covered in this manual, please consult your nearest Sony dealer.

Caution

- Before making any connections, disconnect the ground terminal of the car battery to avoid short circuits.
- Be sure to use speakers with an adequate power rating. If you use small capacity speakers, they may be damaged.
- Do not connect the \ominus terminal of the speaker system to the car chassis, and do not connect the \ominus terminal of the right speaker with that of the left speaker.
- Install the input and output cords away from the power supply wire as running them close together can generate some interference noise.
- This unit is a high powered amplifier. Therefore, it may not perform to its full potential if used with the speaker cords supplied with the car.
- If your car is equipped with a computer system for navigation or some other purpose, do not remove the ground wire from the car battery. If you disconnect the wire, the computer memory may be erased. To avoid short circuits when making connections, disconnect the +12 V power supply wire until all the other wires have been connected.

Conexiones

Precauciones

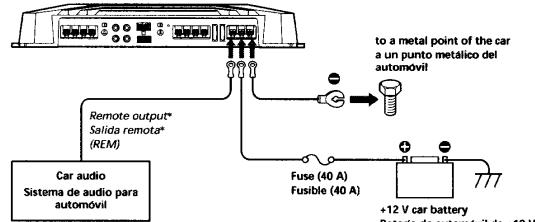

- Esta unidad está diseñada para utilizarse sólo con cc de 12 V negativo a masa.
- Emplee altavoces con impedancia de 2 a 8 Ω (de 4 a 8 Ω cuando se utilice como amplificador en puente).
- No conecte altavoces activos (con amplificadores incorporados) a los terminales de altavoz de la unidad, ya que puede dañar dichos altavoces.
- Evite instalar la unidad en lugares expuestos a:
 - altas temperaturas, como a la luz solar directa o al aire caliente de la calefacción
 - la lluvia o la humedad
 - suciedad o polvo.
- Si aparcas el automóvil bajo la luz solar directa y se produce un considerable aumento de temperatura en el interior, deje que la unidad se enfrie antes de utilizarla.
- Si instala la unidad horizontalmente, asegúrese de no cubrir las aletas con la moqueta del suelo, etc.
- Si coloca la unidad demasiado cerca de la radio o antena del automóvil, pueden producirse interferencias. En este caso, aleje el amplificador de dicha radio o antena.
- Si la unidad principal no recibe alimentación, compruebe las conexiones.
- Este amplificador de potencia emplea un circuito de protección para proteger los transistores y los altavoces en caso de que dicho amplificador presente fallos de funcionamiento. No intente someter a prueba los circuitos de protección cubriendo el disipador de calor o conectando cargas inadecuadas.
- No utilice la unidad si la batería se está agotando, ya que el rendimiento óptimo de dicha unidad depende de un buen suministro de alimentación.
- Por razones de seguridad, mantenga el volumen del sistema de audio en un nivel moderado de forma que sea posible oír los sonidos del exterior del automóvil.

Si desea realizar alguna consulta o solucionar algún problema relativos a la unidad que no aparezcan en este manual, póngase en contacto con el distribuidor Sony más próximo.

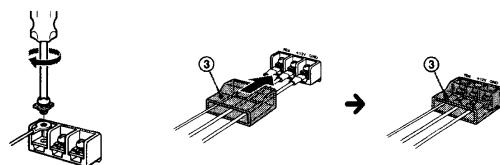

Precaución

- Antes de realizar las conexiones, desconecte el terminal de toma a tierra de la batería del automóvil para evitar cortocircuitos.
- Asegúrese de utilizar altavoces con una potencia nominal adecuada. Si emplea altavoces de pequeña capacidad, pueden dañarse.
- No conecte el terminal \ominus del sistema de altavoces al chasis del automóvil, ni el terminal \ominus del altavoz derecho al del altavoz izquierdo.
- Instale los cables de entrada y salida alejados del cable de suministro de alimentación, ya que en caso contrario puede generarse ruido por interferencias.
- Este unidad es un amplificador de alta potencia. Por tanto, puede no funcionar a pleno rendimiento si se utiliza con los cables de altavoz suministrados con el automóvil.
- Si el automóvil está equipado con un sistema de ordenador para la navegación o para otra finalidad, no desconecte el conductor de toma a tierra de la batería del automóvil. Si lo desconecta, la memoria del ordenador puede borrarse. Para evitar cortocircuitos al realizar las conexiones, desconecte el cable de suministro de alimentación de +12 V hasta conectar todos los cables.

Power Connection Wires (not supplied) Cables de conexión de alimentación (no suministrados)

Make the terminal connections as illustrated below. Realice las conexiones de terminal como se ilustra a continuación.

Pass the wires through the cap, connect the wires, then cover the terminals with the cap.

Note

When you tighten the screw, be careful not to apply too much torque* as doing so may damage the screw.

* The torque value should be less than 1 N·m.

Pase los cables a través de la cubierta, conectélos y cubra los terminales con dicha cubierta.

Note

Al apretar el tornillo, tenga cuidado de no aplicar demasiada fuerza de torsión*, ya que puede dañarlo.

* El valor de fuerza de torsión debe ser inferior a 1 N·m.

Notes on the power supply

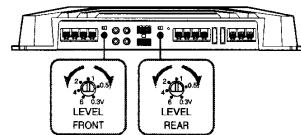

- Connect the +12 V power supply wire only after all the other wires have been connected.
- Be sure to connect the ground wire of the unit securely to a metal point of the car. A loose connection may cause a malfunction of the amplifier.
- Be sure to connect the remote control wire of the car audio to the remote terminal.
- When using a car audio without a remote output on the amplifier, connect the remote input terminal (REMOTE) to the accessory power supply.
- Use a power supply wire with a fuse attached (40 A).
- Place the fuse in the power supply wire as close as possible to the car battery.
- During full-power operation, a current of more than 40 A will run through the system. Therefore, make sure that the wires to be connected to the +12 V and GND terminals of this unit are larger than 10-Gauge (AWG-10) or have a sectional area of more than 5 mm².

Notas sobre el suministro de alimentación

- Conecte el cable de suministro de +12 V solo después de haber conectado los otros cables.
- Asegúrese de conectar firmemente el cable de toma a tierra de la unidad a un punto metálico del automóvil. Una conexión floja puede causar fallos de funcionamiento del amplificador.
- Si utiliza un sistema de audio sin salida remota en el amplificador, conecte el terminal de entrada remota (REMOTE) al suministro de alimentación accesoria.
- Emplee el cable de suministro de alimentación con un fusible fijo (40 A).
- Coloque el fusible en el cable de suministro de alimentación lo más cerca posible de la batería del automóvil.
- Durante el funcionamiento a pleno rendimiento, fluye por el sistema una corriente superior a 40 A. Por tanto, compruebe que los cables que va a conectar a los terminales de +12 V y GND de esta unidad tengan una capacidad superior a 10-Gauge (AWG-10) una zona de sección superior a 5 mm².

Level Adjustment Control

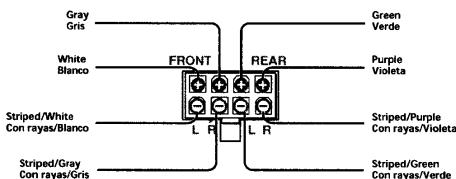

The input level can be adjusted with this control when using source equipment made by other manufacturers. Turn it in the clockwise direction when the output level of the car audio seems low.

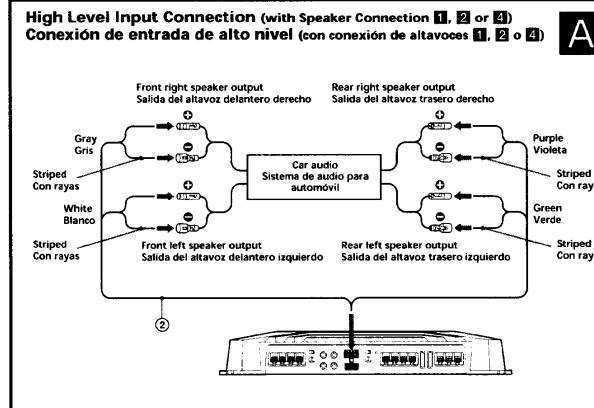

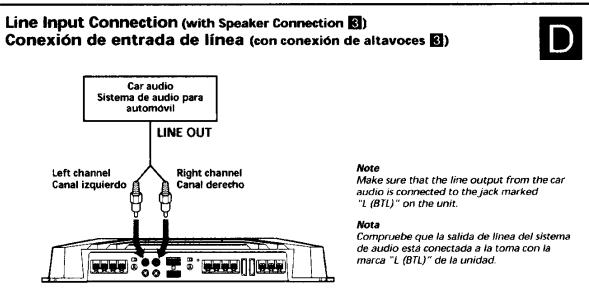

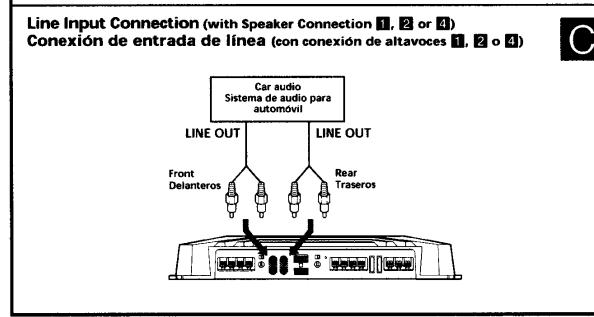

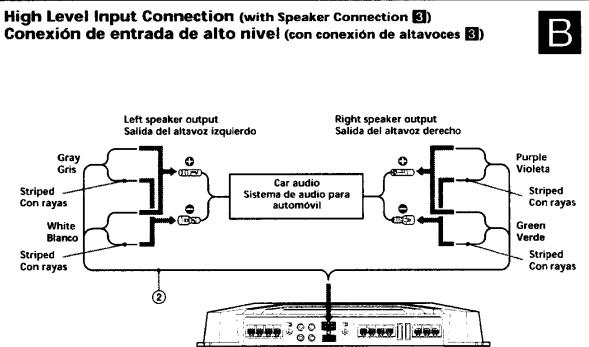

Control de ajuste de nivel

Es posible ajustar el nivel de entrada con este control al utilizar equipos fuente de otros fabricantes. Gírello en el sentido de las agujas del reloj si el nivel de salida del sistema de audio para automóvil parece bajo.

High Level Input Connector Conector de entrada de alto nivel

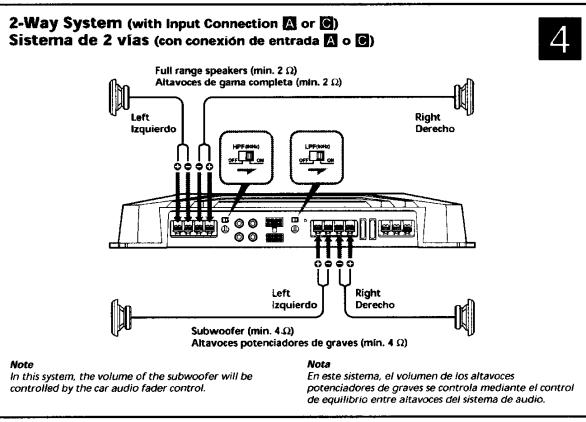

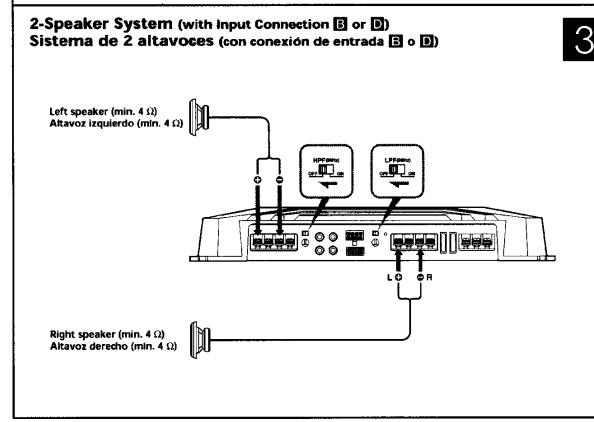

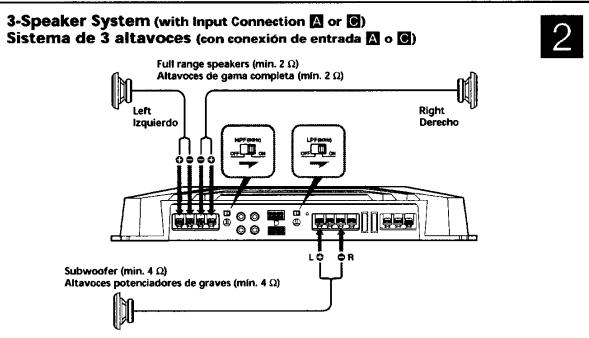

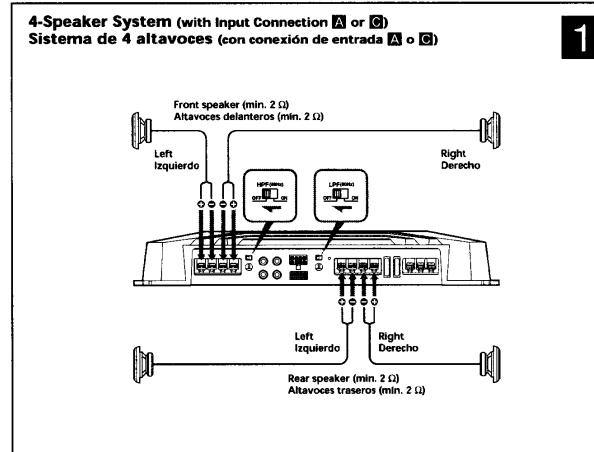

Input Connections**Conexiones de entrada****Speaker Connections**

Turn on or off the LPF and HPF switch at the unit rear as illustrated below.

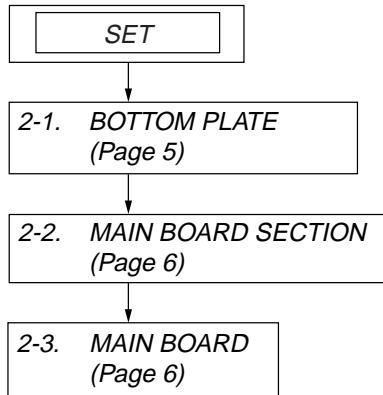

Conexiones de los altavoces

Encienda o apague los interruptores LPF (filtro de paso bajo) y HPF (filtro de paso alto) situados en la parte posterior de la unidad, como se muestra a continuación.

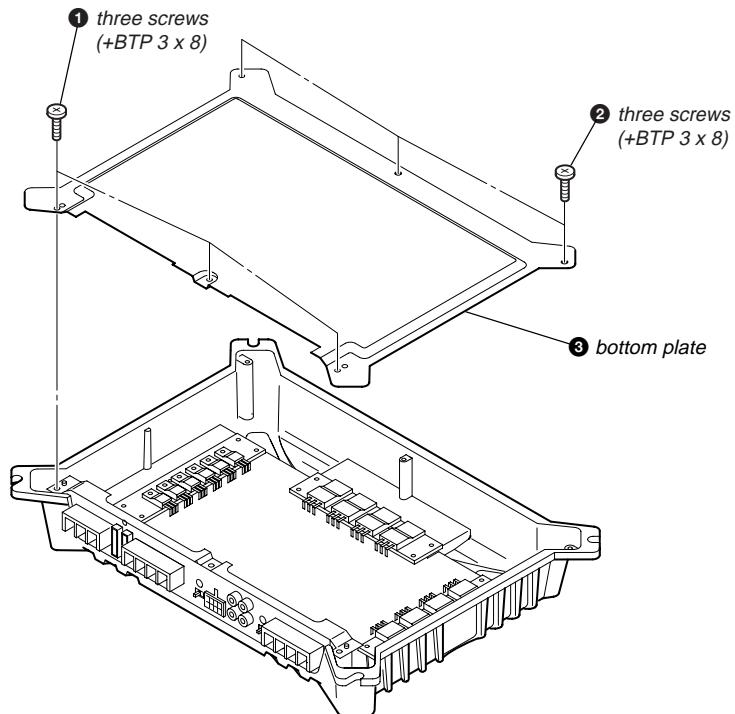

SECTION 2 DISASSEMBLY

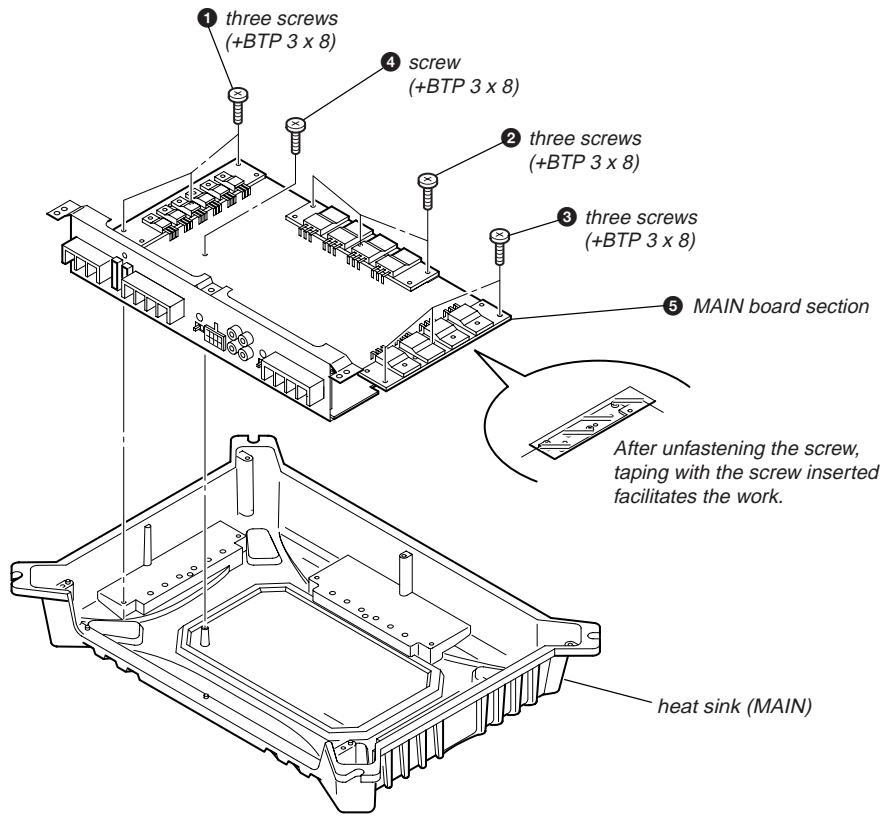

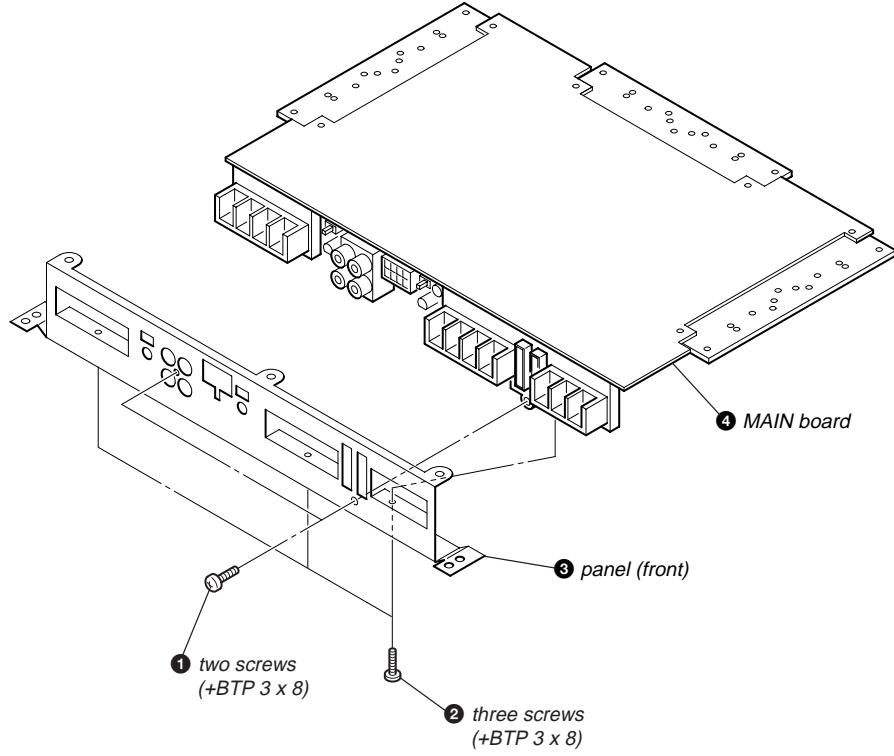

Note : This set can be disassemble according to the following sequence.

Note : Follow the disassembly procedure in the numerical order given.

2-1. BOTTOM PLATE

2-2. MAIN BOARD SECTION**2-3. MAIN BOARD**

SECTION 3 DIAGRAMS

THIS NOTE IS COMMON FOR PRINTED WIRING BOARDS AND SCHEMATIC DIAGRAMS.
(In addition to this, the necessary note is printed in each block.)

for schematic diagram:

- All capacitors are in μF unless otherwise noted. pF: $\mu\mu\text{F}$
- 50 W or less are not indicated except for electrolytics and tantalums.
- All resistors are in Ω and $1/4\text{W}$ or less unless otherwise specified.

Note:
The components identified by mark \triangle or dotted line with mark \triangle are critical for safety.
Replace only with part number specified.

Note:
Les composants identifiés par une marque \triangle sont critiques pour la sécurité.
Ne les remplacer que par une pièce portant le numéro spécifié.

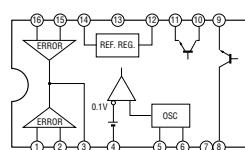

- : B+ Line.
- : B- Line.
- Power voltage is dc 14.4V and fed with regulated dc power supply from +12V and REM terminals.
- Voltage is dc with respect to ground under no-signal condition.
- Voltages are taken with a VOM (Input impedance 10 M Ω). Voltage variations may be noted due to normal production tolerances.
- Waveforms are taken with a oscilloscope.
- Voltage variations may be noted due to normal production tolerances.
- Circled numbers refer to waveforms.
- Signal path.
- : AUDIO

for printed wiring boards:

- : Pattern from the side which enables seeing.
