- The symbols indicate caution is needed to prevent injuries and damage to property.

The symbols and their meanings follow.

	Warning	If you ignore this symbol and handle the product incorrectly or unsafely, serious injury or death may result.
	Caution	If you ignore this symbol and handle the product incorrectly or unsafely, injury or only material damage may result.

- The following symbols indicate two levels of cautions.

	When you see this symbol, you have to be very careful.
	When you see this symbol, you have to follow the instructions there.

Warning

	Do not look squarely into the laser light coming from the pickup. You may lose your sight.		Fuse Caution Always use a designated fuse. Use of an incorrect fuse may result in a fire.

Caution

	Do not allow wiring to be caught in the screw/chassis. If wiring is caught in the screw/chassis, it may cause a short circuit, resulting in a fire.		Battery Caution Use the designated battery. Confirm the correct polarity and seat of the battery. An incorrect battery or an improperly connected or seated battery may result in a fire.
---	---	---	---

	High Temperature Caution Touching the heat sink may cause severe burns.		Designated Parts Caution Look up the part list and ensure that only designated parts are used to prevent problems or accidents.
---	---	---	---

	Reverse Power Supply Connections or Misconnections Caution Reverse power supply connections or misconnections may cause ignition problems and smoke may result.		Wiring Caution Ensure that the wiring is correct when rewiring to prevent problems with ignition/breakdown.
---	---	---	---

	Soldering Caution Hot solder from solder splash may cause severe burns.		Wear Gloves Wear gloves to prevent electrical shocks or injury from the end face of the metal.
---	---	---	--

	For the FDA laser standard, the following CAUTION label is stuck on each product. Please be careful for repair.
